

Council Authors' representative Candidate Statement

Family name (surname):	Glujovsky
First name(s):	Demian
Today's date:	11/Ago/2021
Role in a Cochrane Group:	Editor in Gynaecology and Fertility Group – Cochrane Argentina

Please state:

1. Why you wish to run for a position on the Cochrane Council?

As a Cochrane author (for more than 15 years) and editor (since 2014), every year I feel more and more committed to the organization. I expect to help to give my point of view as an author but, especially, to tell the point of view of the authors in general, to help improving the author's experience, expecting that this could have a beneficial effect on Cochrane as a whole.

2. What skills, experiences or qualities you would bring to the Council

I have a large experience in Cochrane as an author, working in multiple reviews and in every single step of them. I have also been working in Covidence from the beginning, which gave me another point of view about the author's needs. Besides, I am good at listening and understanding, which helps me during the interaction with others. I am part of the scientific group where I work as a physician, and I am the scientific coordinator of the local clinical. These positions gave me the experience to discuss with colleagues about the needs of the researchers.
